

Please do not implement any proposal that would lessen or weaken Indiana's Telephone Privacy law. I used to receive 10 to 12 telemarketing calls per week. Now, thanks to Indiana's law, I receive 0 to 1 per month. Not having to answer these calls has greatly improved my time when I am at home. I don't think anyone has the right to call me at home to sell me something. Please leave Indiana's law alone!
